

# *Summer Snaps*

*In this edition, we present you  
with Polly Reed's pictures of her friend's begonias  
in Fisher's Island and  
Mary Pressly's pictures of our Tidal Garden*

*Thank you, Polly and Mary,  
for sharing your beautiful pictures with us.*

*Enjoy!*

**From Polly Reed**

*Polly writes: “These begonias were started by my great friend Melie Spofford . She is a longtime member of the Rusticus Garden Club in Bedford, NY. She lives in Fisher’s Island now and these plants all came from leaves she took from the Four Arts Garden over 15 years ago. They have lived indoors at Fisher’s all this time. I’m quite sure she took a propagation clinic given by Johanna Kitson who gave many different clinics during the time she was the gardener with our garden club.....begonias, bromeliads, orchids etc.”*

## From Mary Pressly

*With the full moon on Friday, September 27th, Palm Beach had King tides and persistent rain over the weekend... Our Tidal Garden is handling the King tides beautifully.*

Upcoming:  
VVG #72: Lisa Bertles' pictures of her summer home in  
Jackson Hole, Wyoming.  
Please stay tuned...
