from

Thank you, Christina!

Enjoy!

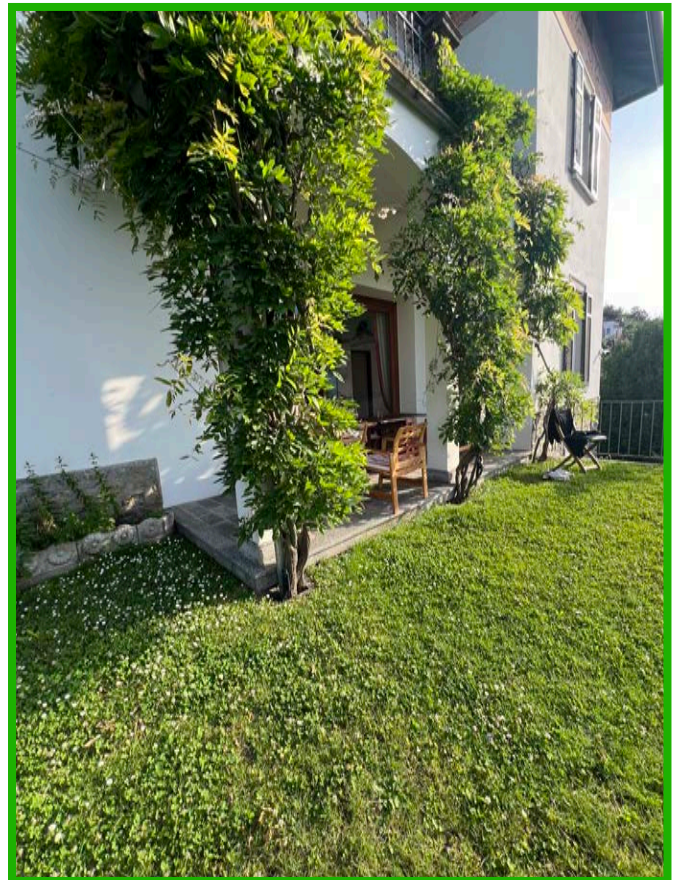

stunning... like a postcard!

Christina writes: “First is the view from the villa where we stayed in San Giovanni, and some highlights of Bellagio, the next town over.”

Christina writes: "... in the last photo of the loggia lawn that it has never seen a pesticide. The naturally growing "weeds" along the sides of the road and in the stone walls were just as beautiful to me as the landscaped gardens."

*Upcoming: We will continue with Christina's trip to Italy.
